Orders over a value of £350 will qualify for a **10% discount** (not available on digital images)

If you require another size, let me know and I will find out if it can be made

All Images will be retouched if necessary, if you require extra retouching, there may be an additional charge, please ask for details.

Digital Images

(Not to be used for commercial use unless Stone Photos agree to this)

Small Digital Images (to fit within 2500x2500px, approx 6x9"):

If you would like a digital image for printing your own cards, small prints etc, this costs £20 for one image emailed to you.

Or 7 images for £100 emailed (each image is £14 thereafter) - Not available on online orders (you'll need to email me)

10 High Resolution Digital Images:

Choose your 10 favourite images from your portrait session and have them put onto USB, this costs £250

(additional high resolution digital images will cost £20 each).

All High Resolution Digital Images:

If you would like to purchase all of the edited images from your portrait session on USB, this costs £400.

You then are able to print the pictures yourself and share them with friends & family.

(This is for 1 portrait session, multiple sessions can be purchased at a discounted price, ordered at the same time)

Print This is a standard unframed print, ready for you to mount or frame.
Printed in a lustre finish unless requested otherwise

Ply Print Plyprints are incredibly strong and have a beautifully layered edge, that will really make your prints stand out. The edges are sanded and waxed to highlight the subtle layers of birch timber. Your print is then mounted permanently onto the smooth surface and a matte laminate is applied to protect it. Each Plyprint comes with a keyhole drilled into the reverse allowing you to hang them directly onto your walls. At 18mm thick smaller plyprints can be free standing.

Ali Print A solid 2mm aluminium panel, provides a stable rigid surface with a sleek slim-line brushed aluminium edge. A wooden sub-frame is attached to the reverse to act as a hanging mechanism and also to give a floating appearance off the wall.

Acrylic Print We use the highest quality 3mm Perspex to produce our professional acrylic prints. Your print is face mounted onto the acrylic panel using an optically clear adhesive producing high-definition crystal clear results. Backed with a solid aluminium panel to protect the print and with a wooden sub-frame attached to the rear, your image will float off the wall providing a beautiful contemporary display.

Framed Print These solid wood, classic framed prints finish off your pictures perfectly. Our most popular frame, show on the left, has a slim, box frame which works really well with multi image pictures. Depending on the frame size it will have either a 3mm glass or 3mm UV protected acrylic glass. The frames come ready to hang.
